SECTION 1: Identification

1.1 Product identifier

Trade name: PyroVex® B -108W

Chemical Name and Synonyms:
Bis(tetrabromophthalimido)ethane; 1,2-Bis(tetrabromophthalimide)ethane; N,N'-Ethylenebis(3,4,5,6-tetrabromophthalimide); 1H-Isoindole-1,3(2H)-dione, 2,2'-(1,2-ethanediyl) bis[4,5,6,7-tetrabromo-; Ethylene bis tetrabromophthalimide; EBTBP.

1.2 Relevant identified uses of the substance or mixture and uses advised against

1.2.1 Relevant identified uses:
Flame retardant in electrical and electronics components, wire and cable insulation, switches, and conductors. Brominated additive flame retardant.

1.2.2 Recommended restrictions on use: Professional users only.

1.3 Details of the supplier of the safety data sheet

Velsicol Chemical LLC
10400 W. Higgins Road, Suite 303
Rosemont, Illinois 60018 USA
Phone: (847) 813-7888
Fax: (847) 768-3227
www.velsicol.com

1.4 Emergency telephone number
Outside the continental U.S.A. call CHEMTREC 1-800-424-9300 (24 hours)
In the continental U.S.A. call CHEMTREC 703-527-3887 (24 hours)

SECTION 2: Hazards Identification

2.1 Hazard classification and Hazard statement(s)
No adverse health effects in human are known.

2.2 Precautionary statements: Not available

2.3 Signal Word: None

2.4 Pictograms: None

2.5 Other hazards: No available

2.6 Additional Information: No available

SECTION 3: Composition/information on ingredients:

3.1 Substance:

</table>

3.2 Impurities and stabilizing additives
No information available
SECTION 4: First-Aid Measures

4.1 Description of first aid measures

4.1.1 General information:
Inhalation and skin contact are expected to be the primary routes of occupational exposure.

4.1.2 Following inhalation:
Remove to under fresh air. If breathing is difficult, give artificial respiration. Get medical attention.

4.1.3 Following skin contact:
Wash skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse.

4.1.4 Following eye contact:
Flush with plenty of water for at least 15 minutes. Get medical attention.

4.1.5 Following ingestion:
Rinse mouth with water. Get medical attention.

4.1.6 Self-protection of the first aider:
See section 8

4.1.7 Notes for the doctor:
Not available.

4.2 Most important symptoms and effects, both acute and delayed
Not available.

4.3 Indication of any immediate medical attention and special treatments needed:
Not available.

SECTION 5: Fire-Fighting Measures

5.1 Extinguishing media
Flammability Properties: Non-flammable.
Suitable extinguishing media: Dry chemical, water spray (fog), foam or carbon dioxide. Use extinguishing media appropriate to surrounding fire conditions.
Unsuitable extinguishing media: DO NOT use water jet.

5.2 Special hazards arising from the substance or mixture
High temperature may liberate toxic gases. Do not breathe smoke or fumes. Exposure to decomposition products may be a hazard to health.

5.3 Advice for fire fighters
Fire-fighters should wear protective clothing and Self-Contained Breathing Apparatus (MSHA-NIOSH approved) with chemical resistant gloves. Firefighting equipment should be thoroughly decontaminated after use.

SECTION 6: Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures
Wearing of suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent possible contamination of skin, eyes and personal clothing.
Avoid dust formation. Avoid breathing dust.

6.2 Environmental precautions
Prevent further leakage or spillage if safe to do so. Do not allow to enter drainage system.

6.3 Methods and materials for containment clearing up
Stop the leak if possible. Pick up and arrange disposal without creating dust. Sweep up and shovel. Dispose of contents/container in accordance with local/regional/national/international regulation.

6.4 References to other sections
See sections 7, 8 and 13 for further advice.

SECTION 7: Handling and Storage

7.1 Precautions for safe handling
Handle in accordance with good industrial hygiene and safety practices. Wear suitable protective clothing, gloves and eye/face protection. Avoid contact with skin and eyes. Provide appropriate exhaust ventilation at places where dust is formed.

7.2 Conditions for safe storage, including any incompatibilities
Store in well-ventilated and dry area; Keep container tightly closed.

Specific incompatibilities
Strong oxidizing agents.

7.3 Specific end uses(s)
Raw industrial material.

SECTION 8. Exposure Controls/Personal Protection

8.1 Control parameters
No exposure limits have been established for this product. Occupational exposure to this product may occur through inhalation and dermal contact with this compound at workplaces where it is produced or used.

8.2 Exposure controls

8.2.1 Appropriate engineering controls:
Provide ventilation if necessary to minimize exposure. If practical use local mechanical exhaust ventilation at sources of air contamination such as open process equipment.

8.2.2 Personal protective measures:
Local exhaust ventilation, or other engineering controls. Ensure that eyewash station and safety shower is proximal to the work-station location. Suggested protective clothing might not be sufficient.

Respiratory protection
Dust respirator. Suggested protective clothing might not be sufficient.

Body Protection

Eye and face protection
Safety glasses with side-shields. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection
Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Hygiene measures
Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

8.2.3 Environmental exposure controls:
Do not flush into surface water or sanitary sewer system.

SECTION 9: Physical and Chemical Properties

9.1 Information on basic physical and chemical properties
Appearance: White powder
Odor: No distinctive odor.
Odor threshold: No information available.
PHT: no data available
Boiling point (average): no data available
Melting point/freezing point: 456°C
Flashpoint: no data available
Evaporation rate: no data available
Flammability (solid): Not flammable
Vapor pressure: 2.5X10-22 mm Hg at 25°C
Vapor density: no data available
Specific Gravity: 2.77 g/cm³
Bulk Loose Density: 573 kg/m³
Bulk Packed Density: 1149 kg/m³
Solubility in water (weight % at 25 °C): <0.01 in water, acetone, methanol, toluene
Solubility in other solvents: varies
Surface tension: no data available
Partition coefficient: no data available
Auto ignition temperature: no data available
Decomposition temperature: no data available
Viscosity: Not applicable
Explosive properties: no data available
Oxidizing properties: no data available
Dissociation Constant: no data available
Molecular Weight: 951.47

9.2 Other information:
No information available.

SECTION 10: Stability and Reactivity

10.1 Reactivity
No hazardous reaction when handled and stored according to provisions.

10.2 Chemical stability
This substance is stable under recommended storage conditions.

10.3 Others
Possibility of hazardous reactions:
No hazardous reactions expected under normal conditions of use.

Conditions to avoid:
High temperatures above 400°C / 752°F.

Incompatible materials:
Strong oxidizing agents
Hazardous decomposition products: Hydrogen bromide, hydrogen cyanide and oxides of nitrogen. In the event of fire: see section 5

SECTION 11: Toxicological Information

11.1 Information on toxicological effects

Velsicol Chemical LLC has not conducted toxicity tests on this substance. However, toxicity data are available for this or similar substances.

(a) Acute toxicity
LD50 Rat (Sherman-Wistar) oral >7500 mg/kg bw;
LC50 Rat inhalation >203 mg/L/1 hr;
LD50 rabbit skin >2000 mg/kg

(b) Skin corrosion/irritation
Not a skin irritant

(b) Serious eye damage/irritation
Not an eye irritant

(d) Respiratory/skin sensitisation
No data available

(e) Germ cell mutagenicity
No data available

(f) Carcinogenicity
No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC, ACGIH, NTP and OSHA.

(g) Reproductive toxicity
No data available

(h) STOT-single exposure
No data available

(i) STOT-repeated exposure
No data available

(j) Aspiration hazard
No data available

(k) Additional Information
RTECS Number: NR3398507

SECTION 12: Ecological Information

12.1. Toxicity

Velsicol Chemical LLC has not conducted toxicity tests on this substance. However, some data are available on the components of this material. In general, aquatic toxicity unlikely.

TERRESTRIAL FATE (SRC): expected to be immobile in soil, not expected to volatilize from dry soil surfaces, biodegradation in soil may be slow.
AQUATIC FATE (SRC): not expected to adsorb to suspended solids and sediment, Volatilization from water surfaces is not expected, potential for bioconcentration in aquatic organisms is low.

Orange-red killifish (Oryzias latipes), 48 hr LC50 > 500 ppm (w/v).

12.2 Persistence and degradability
No data available

12.3 Bioaccumulative potential
No data available

12.4 Mobility in soil
No data available

12.5 Results of PBT and vPvB assessment
This substance is not considered to be persistent, bio-accumulative and toxic (PBT).

12.6 Other adverse effects
No data available

SECTION 13: Disposal Considerations
Recycle to process, if possible. Dispose of contents/container in accordance with local/regional/national/international regulation.

SECTION 14: Transport Information
Not dangerous goods for DOT, IMDG, and IATA.

SECTION 15: Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
This substance included on or exempted from listing on the following inventories:
United States - Inventory (TSCA). This chemical is listed as a High Production Volume (HPV) (65FR81686; http://www.epa.gov/opptintr/chemrtk/hpvchmlt.htm) and TSCA Flag: XU [Exempt from reporting under Inventory Update Rule (IUR)]
European Inventory of Existing Commercial Chemical (EINECS # 251-118-6, This substance is not listed in the Annex I of Regulation (EC) No 689/2008. )
Canada - Domestic Substances List (DSL)
Australia - Inventory of Chemical Substances (AICS)
China - Inventory of Existing Chemical Substances (IECSC)
Japan - Existing and New Chemical Substances (ENCS) ((5)-5550)
Korea - Existing and Evaluated Chemical Substances (KECL) (KE-13207)
New Zealand - Inventory of Chemicals (Status: nzG)
Philippines - Inventory of Chemicals and Chemical Substances (PICCS)

15.2 Chemical Safety Assessment
No information available.

SECTION 16: Other Information

16.1 Indication of changes
This is the second SDS under OSHA Hazard Communication Standard (HCS) (29 CFR 1910.1200(g)) with new format, 22 October 2015

V2: Change PyroVex to ResNovae, 06 November 2015

16.2 Key literature references and sources for data
Hazardous Substances Databank
Ariel WebInsight, 3E Company.com
Registry of Toxic Effects of Chemical Substances (RTECS)
