SECTION 1: Identification

1.1 Product identifier
Trade Name: VELSIFLEX® 342
Chemical name: Dipropylene glycol dibenzoate
Synonym: Propanol, oxybis-, dibenzoate; Oxydipropyl dibenzoate; Oxybispropanol dibenzoate

1.2 Relevant identified uses of the substance or mixture and uses advised against

1.2.1 Relevant identified uses
Industrial applications: Plasticizer for adhesives, caulsks, flooring and paints.

1.2.2 Uses advised against
No specific uses advised against have been identified.

1.3 Details of the supplier of the safety data sheet
Velsicol Chemical LLC
10400 W. Higgins Road, Suite 303
Rosemont, Illinois 60018 USA
Phone: (847) 813-7888
Fax: (847) 768-3227
Email: customerservice@velsicol.com

1.4 Emergency telephone number
Outside the continental U.S.A. call CHEMTREC 1-800-424-9300 (24 hours)
In the continental U.S.A. call CHEMTREC 1-800-424-9300 (24 hours)

SECTION 2: Hazard(s) identification

2.1 Hazard classification and Hazard statement(s)
Not classified as hazardous substance.

Inhalation and skin contact are expected to be the primary routes of occupational exposure to VELSIFLEX® 342. This material is not expected to cause significant adverse human health effects when used in accordance with good industrial hygiene and safety practices are followed. Repeated or prolonged exposure is not known to aggravate any existing medical condition.

2.2 Precautionary statements
Avoid release to the environment
Dispose of contents/container in accordance with local/regional/ national/international regulations

2.3 Signal Word
No signal word

2.4 Pictograms
No Pictogram

2.3 Other hazards
None known
SECTION 3: Composition/information on ingredients:

3.1 Substances

SECTION 4: First-aid measures

4.1 Description of first aid measures

4.1.1 General information:
Inhalation and skin contact are expected to be the primary routes of occupational exposure to VELSIFLEX® 342. This material is not expected to cause significant adverse human health effects when used in accordance with good industrial hygiene and safety practices are followed.

Chronic health effects: None known.
Carcinogenic status: Not listed or regulated by IARC, NTP, OSHA, or ACGIH. None Expected.
Reproductive effects: See Section 11 for toxicological information.

4.1.2 Following inhalation:
If inhaled, remove to fresh air. If breathing is difficult, give oxygen. Seek medical attention if symptoms occur.

4.1.3 Following skin contact:
Flush the area with plenty of water. Remove material from clothing. Wash clothing before reuse.

4.1.4 Following eye contact:
Flush with plenty of water. Seek medical attention if irritation persists.

4.1.5 Following ingestion:
Do NOT induce vomiting unless directed to do so by medical personnel. Get medical attention. NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON.

4.1.6 Self-protection of the first aider:
Wear protective gloves/protective clothing/eye protection/face protection if possible. Do not get in eyes, on skin, or on clothing. Contaminated work clothing should not be allowed out of the workplace. Get medical attention immediately.

4.1.7 Notes for the doctor
Not available.

4.2 Most important symptoms and effects, both acute and delayed
May cause eye and skin irritation. High airborne concentrations of vapors resulting from heating, misting or spraying may cause irritation of the respiratory tract and mucous membranes.
4.3 Indication of any immediate medical attention and special treatments needed
None known.

SECTION 5: Fire-fighting measures

5.1 Extinguishing media
Flammability Properties: Non-flammable liquid. Closed container may rupture (due to build up in pressure) when exposed to extreme heat.

Suitable extinguishing media: Use dry chemicals, CO2, water spray or foam.

Unsuitable extinguishing media: Do not use water jet

5.2 Special hazards arising from the substance or mixture
Products of combustion are carbon oxides (CO, CO2).

5.3 Advice for fire fighters
Firefighters and others who may be exposed to products of combustion should wear full firefighting turn out gear and self-contained breathing apparatus. Firefighting equipment should be thoroughly decontaminated after use.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel
Wearing of suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing; Removal of ignition sources, provision of sufficient ventilation; Evacuate the danger area or to consult an expert.

6.1.2. For emergency personnel
Wearing of suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing; Ventilate the area involved.

6.2 Environmental precautions
Do not allow to enter sewers / surface or ground water. In case of spillage to water course or public sewers inform responsible authorities.

6.3 Methods and materials for containment and clearing up
Small Spill - Absorb with an inert material and place in an appropriate waste disposal container. Large Spill - Stop the leak if possible. Remove all ignition sources. Ventilate the area involved. Absorb with an inert material and put the spilled material in an appropriate waste disposal container.

6.4 References to other sections
See sections 8 and 13 for further advice.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
Protective measures: Do not handle until all safety precautions have been read and understood; Wear suitable protective clothing, gloves and eye/face protection.
Measures to prevent aerosol and dust generation: Provide ventilation if necessary to minimize exposure. Do not breathe dust/fumes/gas/mist/vapours/spray;

Measures to protect the environment: Avoid release to the environment.

Advice on general occupational hygiene: Handle in accordance with good industrial hygiene and safety practices. These practices include avoiding unnecessary exposure and removal of material from eyes, skin, and clothing. Keep away from sources of ignition.

7.2 Conditions for safe storage, including any incompatibilities
Store in well ventilated area away from sources of ignition; Keep container tightly closed. Keep away from heat, sparks and open flames.
Storage Temperatures: 38 °F to 150 °F; and shelf life: 2 years.

7.3 Specific end uses(s)
Plasticizer products will soften plastic materials and as a result they should not be transported in piping systems constructed from these materials.

SECTION 8. Exposure controls/personal protection

8.1 Control parameters
No national limits have been set for Occupational Exposure Limit values.

8.2 Exposure controls
Ventilation must be adequate to maintain the ambient workplace atmosphere.

8.2.1 Appropriate engineering controls:
Always provide effective general and, when necessary, local exhaust ventilation to draw spray, aerosol, fume, mist and vapor away from workers to prevent routine inhalation.

8.2.2 Personal protective equipment:
Do not eat, drink, or smoke whilst working. Keep away from foodstuffs, beverages and feed. Remove all contaminated clothing. Wash hands before breaks and at the end of work.

Respiratory protection
Respiratory protection is not needed with proper ventilation. In case of insufficient ventilation, wear suitable respiratory equipment.

Hand Protection
Chemical resistant coveralls, gloves and boot covers. If gloves are damaged during use, remove immediately and wash hands before replacing with new gloves.

Eye and face protection
Safety glasses should be worn when handling this substance.

Skin protection
Aprons or coveralls are recommended. These should be changed after use or if contaminated.

8.3 Environmental exposure controls:
Avoid release to the environment.
SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties
Appearance: Clear, Colorless liquid, free of particulates
Odour: Mild ester-like
Odour threshold: Not available
Bulk Density: Not available
pH: Not available
Melting/Freezing point: -30°C
Pour point: -19°C
Boiling point: 232°C @ 5 mm Hg
Flashpoint: 182°C (closed cup)
Evaporation rate: Lower than 1 compared to Butyl acetate.
Flashpoint: 182°C (closed cup)
Evaporation rate: Lower than 1 compared to Butyl acetate.
Vapor pressure: 1.2 E-06 mmHg at 25°C
Vapour density: 11.8 (Air = 1)
Specific Gravity: 1.230-1.125 g/cm3 at 25°C
Refractive index: 1.5282 at 25°C
Solubility in water: Negligible
Solubility in other solvents: Easily soluble in methanol, diethyl ether, and acetone.
Surface tension: Not available
Partition coefficient: Not available
Volatile by weight: <3%
Auto ignition temperature: Not <400°C (752°F) at 760 mm Hg
Decomposition temperature: Not available
Viscosity: 120 cps, Brookfield @ 25°C
Explosive properties: Not considered to be explosive
Oxidising properties: Not considered to be oxidising
Dissociation Constant: Not available
Molecular Weight: 342

9.2 Other information
Some of the number specified above are typical values and do not represent a specification.

SECTION 10: Stability and reactivity

10.1 Reactivity
Not a reactive substance and no reactive hazards are expected.

10.2 Chemical stability
This substance is stable.

10.3 Possibility of hazardous reactions
No hazardous reactions expected under normal conditions of use.

10.4 Conditions to avoid
Excessive heat and ignition sources.

10.5 Incompatible materials
Slightly reactive to reactive with oxidizing agents, acids and alkalis.

10.6 Hazardous decomposition products
SECTION 11: Toxicological information

11.1 Information on toxicological effects
Velsicol Chemical LLC has not conducted toxicity tests on VELSIFLEX® 342. However, toxicity data are available on the components of this material.

Not classified (based on available data, the classification criteria are not met).

Acute toxicity
The acute median lethal oral doses (LD50) to male and female rats were calculated to be: 5072 mg/kg body weight (males), 3295 mg/kg body weight (females), and 3914 mg/kg body weight (both sexes).

No deaths were seen in rats exposed to a 200 mg/L atmosphere in air for four hours. The acute lethal dermal dose to rats was demonstrated to be greater than 2000 mg/kg body weight.

Skin corrosion/irritation
DPGDB is not irritating to the skin and is not considered to be a primary skin irritant.

Serious eye damage/irritation
DPGDB is not irritants to the eye.

Respiratory/skin sensitisation
DPGDB did not produce evidence of skin sensitization (delayed contact hypersensitivity) in any of the animals tested.

Germ cell mutagenicity
DPGDB showed no evidence of mutagenic activity in this bacterial system.

Carcinogenicity
Not classified (No data available).

Reproductive toxicity
A dietary concentration of dipropylene glycol dibenzoate (DPGDB) at 10000 ppm should be considered as the No-Observed-Effect-Level (NOEL) for parent animals. The No-Observed-Adverse-Effect-Level (NOAEL) for survival and growth of the offspring is considered to be 10000 ppm.

STOT-single exposure
Not classified (No data available).

STOT-repeated exposure
The NOAEL is 1000 mg/kg bw/day

Aspiration hazard
Not classified (No data available).

SECTION 12: Ecological information

12.1. Toxicity
Velsicol Chemical LLC has not conducted toxicity tests on VELSIFLEX® 342. However, toxicity data are available on the components of this material.

No observed effect level: 1000 ppm, earthworm. EC50: > 10 mg/l, Bacteria (Pseudomonas putida)
The EL50 (Area under the curve 72 h) was 1.1 mg/L and the EL50 (Growth rate 0-72 h was 4.9 mg/L while the EL50 (Area under the curve 96 h) was 0.95 mg/L and the EL50 (Growth rate 0-96 h) was 3.6 mg/L.

12.2 Persistence and degradability
DPGDB is readily biodegradable and therefore is not persistence.

12.3 Bio-accumulative potential
QSAR data suggests that DPGDB is not bio-accumulative.

12.4 Mobility in soil
No specific information available

12.5 Results of PBT and vPvB assessment
DPGDB is not PBT or vPvB based upon experimental data.

12.6 Other adverse effects
No information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods
Recycle to process, if possible. Consult your local or regional authorities for disposal options.

SECTION 14: Transport information

This substance is not under control of ADR, IMDG, IATA and DOT. HTS#: 2916.31

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
All chemical substances in this material are included on or exempted from listing on the following inventories: Australia (AICS), Canada (DSL), China (IECSC), Europe (ELNECS 248-258-5), Japan(ENCS (3)-1390), Mexico(INSQ), Korea (KECI KE-27719), New Zealand (NZIoC), Philippines (PICCS), & United States (TSCA)

15.2 Chemical Safety Assessment

HMIS Rating
Health: 1 Flammability: 1 Reactivity (Stability): 0 Personal Protection: X

NFPA Rating
Health: 1 Flammability: 1 Reactivity (Stability): 0 Specific Hazard: X

Key: 0=Insignificant; 1=Slight; 2=Moderate; 3=High; 4=Extreme. An asterisk appearing after the HMIS Health numerical rating denotes a chronic hazard.

SECTION 16: Other information

16.1 Indication of changes
This is the first SDS under OSHA Hazard Communication Standard (HCS) (29 CFR 1910.1200(g))
30 October 2013

Update section 15, added Chemical Safety Assessment: 25 November 2014
Change VELSIFLEX™ to VELSIFLEX®, Updated Section 2.1,7.2: 13 March 2015
Update address on Section 1: 6 June 2016

Update section 9 on Flashpoint: 18 May, 2016

Update section 2 on Signal Word: No signal word: 16 January 2017

Add flash point 218°C (Cleveland Open cup): 20 February 2018

Update section 2 to remove Aquatic Chronic, category 3 classification: 16 May 2018

16.2 Key literature references and sources for data
Information on Chemicals, ECHA website: http://echa.europa.eu/information-on-chemicals
Ariel WebInsight, 3E Company.com
Product Data Sheet and SDS information from manufacturer.

16.3 Classification for mixtures and used evaluation method according to Hazard Communication Standard (HCS)(29 CFR 1910.1200(g)).

16.5 Further information
To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
